

# Make your yearbook as unique as you are!

## **FREE SPRING INSERT CD**

Every yearbook will come with a FREE CD that includes pictures of "spring" events that occur after our final plant deadline date in March. These pages will be saved in a JPEG format so all students can print out the pages that are important to them. This CD allows us to be able to cover events that have not been able to be part of our yearbook before (Harrisburg, DC, senior trip, elem. events, spring sports, etc), truly making our yearbook one that shows the diversity of the student body throughout the entire year.

## **Additional Items available for purchase:**

### **Imprinted Personalization**

Students can personalize their yearbook with their name or special phrase, and up to four affiliation icons representing sports or academic activities.

### **Clear Protective Cover**

Students can ensure that their yearbook will remain a keepsake for years by adding a clear protective cover to protect it from scratches, spills and wear.

### **Autograph Section**

This eight-page color insert offers extra space for autographs and special messages. A more inexpensive version is also available in B & W.

### **Photo Pockets**

This sheet of six adhesive-backed photo pockets includes four pockets that hold photos and other mementos (up to 2 1/2" x 3 1/2") plus two additional pockets that are sized for up to 3 1/2" x 5". A great way to hold mementos and souvenirs. Adhesive allows for repositioning.

### **"What's Up?" Section**

Eight engaging pages for younger students featuring news, photos, and interesting facts.

### **"World Beat" Section**

The year's history-making stories and events in a vivid 16-page yearbook insert.
